

THE CORRECT ANSWER IS INDICATED WITH YELLOW HIGHLIGHTING.

- 1. Raludotatug deruxtecan (R-DXd) is an antibody-drug conjugate directed against ...**
 - Folate receptor alpha (FR α)
 - CDH6**
 - HER2
 - XPO1
- 2. On the basis of data from a Phase I study and the ongoing Phase II/III REJOICE-Ovarian01 trial, R-DXd was recently granted breakthrough therapy designation by the FDA for which patients with ovarian cancer (OC)?**
 - Patients with platinum-resistant epithelial OC and HER2 amplification who received prior treatment with trastuzumab deruxtecan
 - Patients with platinum-resistant epithelial OC expressing FR α who received prior treatment with mirvetuximab soravtansine
 - Patients with platinum-resistant epithelial OC expressing CDH6 who received prior treatment with bevacizumab**
- 3. On the basis of results from the Phase III KEYNOTE-B96 trial, the FDA approved pembrolizumab in combination with paclitaxel with or without bevacizumab for which patients with advanced OC?**
 - For all patients with platinum-resistant disease after 1 or 2 prior systemic regimens
 - For patients with platinum-resistant disease and a PD-L1 combined positive score (CPS) of ≥ 1 after 1 or 2 prior systemic regimens**
 - For patients with platinum-resistant disease and a PD-L1 CPS of ≥ 10 after 1 or 2 prior systemic regimens
- 4. Which of the following drug types best reflects the mechanism of action of relacorilant?**
 - HER2 tyrosine kinase inhibitor
 - Selective PARP2 inhibitor
 - Selective glucocorticoid receptor antagonist**
 - Anti-TROP2 antibody
- 5. Emerging data from the Phase III ROSELLA trial comparing relacorilant with *nab* paclitaxel to *nab* paclitaxel alone for patients with platinum-resistant OC report which of the following overall survival (OS) outcomes?**
 - A statistically significant 15% reduction in the risk of death with the combination
 - A statistically significant 35% reduction in the risk of death with the combination**
 - A nonsignificant 15% reduction in the risk of death with the combination
 - OS was inferior with the combination
