

The Implications of Recent Datasets for the Current and Future Management of Non-Hodgkin Lymphoma

THE CORRECT ANSWER IS INDICATED WITH YELLOW HIGHLIGHTING.

1. Which of the following descriptions best characterizes the design of the LOTIS-5 trial?
 - a. A Phase II dose-optimization study of loncastuximab tesirine with rituximab for relapsed/refractory (R/R) diffuse large B-cell lymphoma (DLBCL)
 - b. A Phase II dose-optimization study of loncastuximab tesirine with rituximab for R/R follicular lymphoma (FL)
 - c. A Phase III randomized study evaluating loncastuximab tesirine with rituximab versus R-GemOx (rituximab/gemcitabine/oxaliplatin) for R/R DLBCL
 - d. A Phase III randomized study evaluating loncastuximab tesirine with rituximab versus lenalidomide/rituximab for R/R FL
2. In the LOTIS-7 study evaluating the combination of glofitamab and loncastuximab tesirine for R/R non-Hodgkin lymphoma, what was the approximate overall response rate (ORR) across all dose levels?
 - a. 29%
 - b. 40%
 - c. 62%
 - d. 93%
3. In the Phase III ECHO trial comparing acalabrutinib with chemoimmunotherapy to chemoimmunotherapy alone, which outcome was reported with the combination in the high-risk disease population?
 - a. A markedly reduced ORR compared to that of the overall population
 - b. A high ORR similar to that of the overall population
 - c. An improved ORR compared to that of the overall population
4. AZD0486 is a bispecific antibody targeting ...
 - a. CD3, CD20
 - b. CD3, CD19
 - c. CD3, GPRC5D
 - d. CD4, CD8
5. Which of the following statements is true regarding the incidence of cytokine release syndrome (CRS) in a Phase I study of AZD0486?
 - a. Most patients experienced CRS, with approximately 30% of patients experiencing Grade 3 or higher CRS
 - b. About half of the patients experienced CRS, with approximately 30% of patients experiencing Grade 3 or higher CRS
 - c. About half of the patients experienced CRS, but most events were low grade
 - d. About a quarter of the patients experienced CRS, but most events were low grade
